ABOUT THERON

At Tt eSPORTS, we attempt to deliver the best gamer experience by creating the most amazing E-Sports products to meet the demands and expectations from the community. In 2012 the THERON gaming mouse was created to demonstrate our unwavering commitment to fulfill the brand mission of developing a true gamer's mouse - designed by pro gamer Zhan "Softball" Zhenyu – and the result was beyond amazing.

The mechanical engineering of THERON gaming mouse was meticulously designed to perfection. Its RTS specific-tuned features and ergonomic shape contributed to its popularity, and its aesthetic appeal went beyond E-Sports community. In 2012 THERON is the only gaming mouse that has won the reddot Design Award, with prestigious recognition by the institute of The Design Zentrum – the organizer of red dot.

WORKING WITH TT ESPORTS TO DESIGN A MOUSE THAT FIT MY NEEDS AS A PROFESSIONAL RTS GAMER, I MADE THIS WEAPON TO GIVE ME A DISTINCT ADVANTAGE OVER MY OPPONENTS. BECAUSE I REQUIRE THE HIGHEST ACTIONS-PER-MINUTE (APM) TO BE SUCCESSFUL, I NEEDED TO BE SURE THE THERON MOUSE COULD HANDLE THE STRESS OF INTENSE GAMING SESSIONS. IT'S FULLY CUSTOMIZED TO MY OWN NEEDS WITH MY PREFERRED DPI SETTINGS AND DISTINCT COLORS; SO I NOT ONLY PERFORM WELL, I LOOK GOOD DOING IT. PRECISION, COMFORT AND SPEED HAVE ALL COMBINED TO GIVE ME AN INCREDIBLE TOOL TO DISPOSE OF MY ENEMIES IN A QUICK AND EASY FASHION.

Along came with its aesthetic praise and community's embrace, we continued to re-model and refine the mouse nonetheless, introducing THERON – COMBAT White, BLAZING Red, and METALLIC Yellow edition.

The new THERON Collections are designed with glazed mirror-coating skin, offering E-Sports community an alternative perception for the design award-winning mouse.
